and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service
Fund and requesting that the FCC investigate this matter further before changing
the current policy. Your proposed $1.00 per month charge for all wireless
phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY $1.00 dollar regardless of how
they use their wireless phone, especially for a low-volume user that relies on
wireless service for safety and security, not interstate calls. The current
policy is fair, based on interstate usage, and should be left alone. Please do
not penalize us. Keep this fair.

Personally, this is the same crap that the gov. agencies try to pull everytime
the consumer finds ways to make our lives easier. What, you guys don't make
enough money to support all the things goin on here in the good 'ol U.S. I
believe this the same stuff that happened when more computer users used email
for correspondence than regular 'snail mail'. I bet the people who make these
decisions wouldn't like it at all if we, the consumer were able to vote on how
much money you guys should make for making our lives more difficult, now would
you? Think about that the next time you hop in you plush vehicle and cruise by
those who are just making it, but because of increased fares and taxes on
things, may not. Simple things make our lives easier, so why tack on additional
fees, just to put more money in someone else's pocket?

Thank you for your prompt attention to this matter. Please provide a written
response indicating the status/resolution of this matter.

Very truly yours,

dave henry
